

`Grid::Initialize`

```
graph LR; A[Grid::Initialize] --> B[GridElement::AllocateMemory]; A --> C[GridElement::Initialize];
```

The diagram illustrates a sequence of operations. A central node, `Grid::Initialize`, is shown in a grey box. Two arrows originate from its right side: one points upwards and to the right to a white box labeled `GridElement::AllocateMemory`, and the other points downwards and to the right to a white box labeled `GridElement::Initialize`. All boxes have a black border, and the arrows are dark blue.
