

`GridElement::GridElement`

```
graph LR; A[GridElement::GridElement] --> B[GridElement::AllocateMemory]; A --> C[GridElement::Initialize];
```

The diagram illustrates the initialization process of the `GridElement` class. A central box labeled `GridElement::GridElement` has two outgoing arrows. The top arrow points to a box labeled `GridElement::AllocateMemory`, and the bottom arrow points to a box labeled `GridElement::Initialize`. The central box is shaded gray, while the other two are white.

`GridElement::AllocateMemory`

`GridElement::Initialize`
